Several burglaries took place in Pine City including the Challeen store. "It was there that the looters stopped for lunch. Canned beans, mustard sardines, salmon and crackers formed the early morning luncheon and these foods had been spilled out on a paper laid over the show case in the front of the store. After finishing their repast, the feasters lacked a finger bowl so wiped their hands and possibly faces on a fine new mackinaw. Two big sweaters were taken and a couple of boxes of neckties cannot be accounted for. The safe was the main object of attack at this business place and very unfortunately it had been left open the night before. The loose contents of the outer compartments were scattered ruthlessly about the floor and then the chisels taken from the school-house were brought into play. The strong box was pried loose and carried away bodily. This was found in a clump of bushes near the creamery. It contained all of Mr. Challeen's valuable papers and some jewelry. One diamond ring and some of the papers were left. The remains, which included a valuable ring, a watch and some important papers, were taken."
